

Upswing Health and Integrated Source One Partner to Provide Comprehensive Primary Care and AI-driven Orthopedic Care

STAMFORD, Conn., September 11, 2024 -- Upswing Health, the surgeon-founded virtual orthopedic care company, today announced a partnership with Integrated Source One (ISO), an innovative healthcare delivery company that provides cutting-edge on-site, near-site, mobile, and virtual telehealth services.

This collaboration aims to provide an integrated care experience for patients covering a broad spectrum of care needs. ISO's Direct Primary Care (DPC) model offers employers a transparent, cost-effective healthcare solution that can save patients an average of \$500 to \$3,500 annually by reducing the need for co-pays, deductibles, and unexpected medical bills. Upswing addresses a key area of spend for employers, musculoskeletal (MSK) conditions, by providing a virtual front door to rapidly assess, manage and triage patients from the onset of their MSK problem. Upswing guides the patient on the most effective care pathway on the road to recovery. Upswing reduces orthopedic service utilization by 38% saving plan sponsors on average \$1,100 per engaged patient.

"I am thrilled to announce our partnership with Integrated Source One, an innovator in the delivery of primary care services," said Dr. Jay Kimmel, CEO of Upswing Health. "Together, we will provide employees with high quality virtual and in-person primary care along with immediate access to a full spectrum of orthopedic services."

Dr. Bernard Bubanic, Co-Founder and CEO of Integrated Source One, added, "At Integrated Source One, we are committed to redefining the healthcare experience by making quality care more accessible and affordable for everyone. Our partnership with Upswing Health is a significant step forward in this mission, as it allows us to combine our strengths and deliver even more comprehensive care solutions to employers and their teams. Together, we empower individuals with the tools and support they need to take control of their health, leading to better outcomes and substantial savings."

About Upswing Health

Upswing Health is a healthcare company founded by orthopedic surgeons, that replaces the current model with a better way starting with a proprietary diagnostic tool that sends patients to an Upswing Athletic Trainer and Orthopedic Physician as the virtual front-door to MSK care. Patients stay in Upswing Health's ecosystem for the entirety of their journey – from prevention to diagnosis and recovery.
